

Where the Wild Things Are Challenging Task

Book by Maurice Sednak
Task by Toby Russo

How long did Max spend in the Land of the Wild Things?

And an ocean tumbled by with a private boat for Max

and he sailed off through night and day

and in and out of weeks

and almost over a year

to where the wild things are.

But Max stepped into his private boat

and waved goodbye

and sailed back over a year

and in and out of weeks

and through a day

Problem:

How much time passes in the Land of the Wild Things, compared with one minute in the real world? How much faster is time in the Land of the Wild Things?

Extension:

Max went to sleep, after eating his supper, at 9pm and woke up at 6.30am. He then went straight back to the Land of the Wild Things. How much time has passed there?

The next time Max returned it was four years later, at age 12. How much time had passed now?
