

What is the best way to stop disasters such as the sinking of the Titanic happening again?

Diamond 9

1

Have ice patrols so that planes can spot icebergs from the air

2

Have speed limits near icebergs

3

Have more and better lifeboats with covered roofs to stop people freezing

4

Better training in lifeboat drill for the crew and for passengers

5

Make it easier for people to get from the ships into lifeboats such as an inflatable chute

6

Have better ways of other ships knowing where other ships are

7

Have loudspeakers so that everyone can hear clearly what they need to do in the event of an accident

8

Have special suits that stop you freezing to death if you fall in the water, as well as life-jackets

9

Have helicopters and planes to search and rescue

10

Have special red distress flares which are used only in case of emergency

11

Have better radio signals to tell other ships they need help
