

Word Classes Game!

Instructions:

The aim of the game is to get rid of all of your cards. The first person to do this wins!

1. Make cards, each with a word on. Have lots of different types of words. Make enough cards that when they are dealt each player will have at least 10.
2. Deal out the cards equally between the players.
3. The youngest player goes first. Each player must take it in turns to flick a coin onto the word circle.
4. If the player has a word of that word class amongst their cards, they may throw that card onto the pile. Each player may only throw away a maximum of one card per turn. They may not be able to throw a card away at all.
5. Continue to move around in a clockwise direction, with all players taking it in turns to toss the coin and throw away their cards.
6. When one player has thrown away all their cards, they are the winner!
7. Collect the cards back up, shuffle them, and play again!
