A photograph of a dense tropical jungle. In the center, a river flows through the forest, its surface reflecting the surrounding greenery. The banks are lined with various types of trees and plants, including palm trees and broad-leafed species. The lighting is bright, creating a vibrant green palette with varying shades and textures. The overall scene is a rich, multi-layered display of nature's colors.

Can you see light and dark in the real jungle?

- Is it all the same shade or tint of green?
