

Literacy

Draw a picture of your favourite Christmas present or something that you enjoyed doing over the school holidays.

Draw the picture on the blank side of the postcard or a piece of paper. Practise writing your name and see if you can write a word about your picture with help from an adult.

Remember to use your phonic sounds to sound out each sound in the word and use your letter formation sheet to find the matching letter.

Phonics

Have a look at the pictures and see if you can find the matching sound (at the beginning of the word or at the end). See if you can write the word using your phonic sounds.

Maths

How many ways can you make 5?

Put 5 counters in the top circle. This the 'whole' number.

Practise separating the counters into different circles to make 5. E.g.
 $1+1+1+1+1$ or $2+3$ or $5+0$
