

Phonics Instructions

(Use the weekly grid as a guide)

- 1) Revise the sounds in the first column (revisit and review)
- 2) Show the new sound and practise making the sound using the videos on the class page under 'phonics'.
- 3) Find some objects containing the focus sound and sound out the phonemes in the words.
- 4) Practise writing the corresponding graphemes and say the 'catchphrase' together. Repeat several times.
- 5) Practise oral blending (see the videos on the class page) and blend the words on the grid. Listen carefully to the sounds to guess the word.
- 6) Practise reading the words together in the teacher led blending column. Have a go at reading the independent words by yourself and then practise with an adult.
- 7) Practise reading the tricky words we have already learnt and learn any new tricky words on the grid.
- 8) Practise reading the sentence together.
- 9) Have a go at writing the words in the spelling column by using the phonic sounds that you know.

Watch Geraldine Giraffe by going to Google and typing in Geraldine Giraffe and the sound that you want to watch.
