

Wren Class Newsletter - Week Beginning 13/09/2021.

The children have been BRILLIANT this week! The morning and afternoon groups met for the first time on Monday and all the children enjoyed making new friends. We have been very impressed with the children's ability to sit and listen for short periods of time. Mrs Searle was so impressed, that she asked Wren Class to join the whole school for assembly in both the hall and the playground.

The children have coped very well with playtime on the playground and have enjoyed playing with Year 1 and 2. We have been taking 'colouring' resources out to so that any children who would rather sit quietly can choose to do so.

We are continuing to set up activities and assess the children for our Baseline but have also completed some adult led activities this week.

The children listened to the story 'Harry and the Dinosaurs Go to School' and we discussed some of our classroom rules such as 'super sitting' on the carpet for learning time. The children were able to play with dinosaur related activities such as looking for dinosaur fossils, labelling dinosaurs, painting dinosaurs, etc.

The children had their first Religious Education lesson with Mrs Spong and drew a picture of something special that they do with their family. We also talked about people who help us and what job the children would like to do when they grow up.

On Friday, the children had a go at guessing the baby! We put the baby pictures of the children around the classroom and the children enjoyed looking to see who was who.

Next week the children will have their first Forest School session and we will be reading the story 'Funnybones'.

Below is a picture of our display board in the classroom showing the children's self-portraits.

Have a lovely weekend!
