

# Whose Footsteps?

## Literacy

**Super Tato** – describe your own potato character. **Farm trip** – write about what you did at the farm. **Oliver's Vegetables** – write your own soup recipe. **Who's in the shed?** – describe an animal hiding behind the shed door. **What the Ladybird Heard** – sequence a story or write a story. **Superworm** – what will your worm become? **The Very Hungry Caterpillar** - describe what your caterpillar will eat. **Handa's Surprise** – describe your favourite fruit & write instructions to make a fruit kebab. **Dear Zoo** – Write a letter. **Douglas the Deep Sea Diver** – Design a lost city. **The Snail & the Whale** – write a message from the snail.

## Expressive Arts & Design

Make a potato character, make a pattern using animal footprints, make an animal collage using different animal print patterns, make a vegetable soup, make a repeating pattern fruit kebab, observational chalk drawing of fruit. Focus artist Vincent Van Gough (sunflowers) and Giuseppe Arcimboldo (fruit)

## Personal, Social and Emotional Development

Understanding responsibility in caring for the environment, plants and animals. Celebrating differences, taking things that don't belong to us, telling the truth.

**RE & Celebrations**  
**What can we learn from stories?** – morals  
**Special Places** – homes around the world & places of worship.  
Christianity, Islam, Hinduism, Sikhism, Judaism

## Physical Development

**Climbing Frame** – jumps off and lands appropriately, travel with confidence and skill around, under, over and through. Begin to manage risk.  
**Cutting fruit and vegetables** – using tools such as blunt knives and scissors safely and with increasing control. Shows an understanding of the need for exercise, healthy eating and hygiene.

## Numeracy

Exploring patterns, adding more, taking away, counting to 20, recognising & ordering numbers to 20, ten and a few more (teen numbers), doubling, halving, sharing, odds and evens, length, height, weight and capacity.

## Understanding the World

Learning how plants grow, where food comes from, comparing and noticing differences (fruit and vegetables), understanding what happens on a farm, life cycles (chickens, ladybirds, frogs and butterflies), types of worms and why they are important, habitats & animals from around the world (including minibeasts). Make observations, compare, discuss and share ideas and knowledge.

## Communication & language

Responds to & follows a sequence of instructions (making fruit kebabs & soup), follow and create stories, listen and respond to ideas, uses to talk to organise, sequence and clarify thinking.
