

## Forest School Spring Nest Challenge

**Here are the things you need to know:**

- The challenge is to design and make a nest made of natural materials. You may use string, twine and wire but the base materials and decorations must be natural.
- You can add eggs to the nest if you like (these don't need to be natural!)
- Your nest must be big enough and strong enough to hold 2 creme eggs!! We are looking for creative designs, think about how to make your nest stand out in a crowd – could you try a different shape? What could you use to decorate your nest with?

Email any photos of your spring nests to your class teacher and mark it – Forest School nest challenge. Let's see if we can fill our gallery page with some of your fabulous nest pictures!

Have fun!

Mrs Summers
