**P**rotective, polite and perseverant

**S**afe, secure and successful

**I**nquisitive, inspired and independent

**D**etermined and dependable

**E**loquent, empowered and educated

# Our Curriculum

## Statement of Intent

- At Cheapside School, our aim is to provide our children with a bespoke and engaging curriculum that excites and promotes an interest in learning. We want our children to be happy, resilient and independent so that they are equipped for lifelong learning.
- We use our values (Achieving our best in thought, word and deed) to promote responsibility for learning and citizenship. We encourage a sense of belonging to our school and working together in a safe environment where we are able to risk take, grow and flourish. The outdoors and our local community are an integral part of our curriculum and we use both to facilitate learning new skills and to broaden experiences.
- Every child at our school is recognised as a unique individual and our curriculum represents the diversity within our school community. Our curriculum is adaptable to the needs of every child and the 'whole child' is taken into account ensuring breadth and balance. The ability to learn at Cheapside is underpinned by the teaching of numeracy and literacy skills, knowledge, concepts and Christian Values with the shared vision of preparing our children for life in the 21<sup>st</sup> Century.
